Everything needed for Hailing and Calling in one unit

◆ Built-in GPS

Built-in Hi-Sensitivity 72 channels GPS with internal antenna which eliminates external GPS antenna and its wiring requirements.

◆ Built-in AIS receiver

When connected to a MFD or chart plotter that can read and display AIS data, the built-in AIS receiver will guarantee your safety at sea by providing all the data you need for situational awareness and collision avoidance.

◆ Loud Hailer

15 W PA/Loud Hailer having 8 automatic fog/warning signals and a listen-back capability allowing for two-way communication.

◆ Class D DSC

With Class D DSC (Digital Selective Calling), the FM-4800 allows you to transmit both routine calls and distress calls in case of an emergency.

◆ NMEA2000 Interface

Plug and play NMEA2000 interface allows you to easily connect the FM-4800 to your navigation devices. When connected to the NavNet TZtouch2, DSC calls can be initiated directly from your MFD.
