What is ECDIS training?

Based on regulations from the International Maritime Organization (IMO) Electronic Chart Display and Information Systems (ECDIS) have become mandatory to install on SOLAS ships. In accordance with Standards of Training, Certification and Watchkeeping for Sea (STCW) conventions, all bridge officers are required to undertake Generic ECDIS training, as well as training for each ECDIS model present on their vessel.

FURUNO ECDIS Training

FURUNO offers a variety of ECDIS training forms, all tailored according to customer needs and requests.

Training formats		Classroom	
		FMT Denmark	NavSkills™ Training Center
Features		  <ul style="list-style-type: none"> • Training using real ECDIS and full-mission simulators • Direct lectures from expert instructors • Possible course of training in accordance with the learning level

ECDIS Training

Generic ECDIS Training

Generic ECDIS training provides the trainees with general knowledge of ECDIS as well as how to operate the system. Upon completion of the training, an IMO Model Course 1.27 compliant certificate is issued.

Type-Specific ECDIS Training

The Type-Specific ECDIS Training course provides trainees with knowledge of FURUNO ECDIS functionality and operation. Upon completion of the training, a certificate that complies with the STCW convention is issued by FURUNO.

Classroom Training

FURUNO
MARITIME TRAINING

FURUNO Maritime Training in Copenhagen, Denmark.

FURUNO Maritime Training houses two full-mission simulators (Class S) and two classrooms.

All practical training sessions take place in the full-mission simulators, giving the navigator the opportunity to train in the most realistic environment possible. Theoretical training sessions take place in light, spacious classrooms fully equipped with modern AV-equipment. Each classroom is fitted with eight ECDIS planning stations.

FURUNO Maritime Training offers the following types of ECDIS training:

- **Generic ECDIS training**

IMO ECDIS model course 1.27, approved by the Danish Maritime Authority.

- **Type-Specific ECDIS training**

Supported models: FMD-3100, FMD-3005/3200/3300

NavSkills™

NavSkills™ is a training solution offered to nautical academies and to ship owners.

NavSkills™

NavSkills™ Training Center

The NavSkills™ Training Center provides class room training in full compliance with FURUNO's quality standards and requirement to content and duration. The local instructors have been educated and certified by FURUNO to provide type-specific ECDIS training courses and the courses provided are identical to the courses provide by FURUNO's own training centers. FURUNO is continuously expanding the network of training centers around the world.

NavSkills™ Training centers offer [Type-Specific ECDIS training](#)

Supported models: FMD-3100, FMD-3005/3200/3300

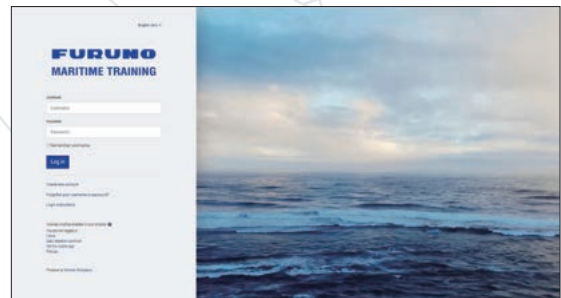

* Depending on training center, supported models may vary. For further details, please access to our webpage below.
